Drawing from our past...

GT has been an icon of biking since 1972, driving the development of not only mountain and BMX tech, but the culture engrained in the sports themselves.

...to inspire the future

Beyond just dirt jumps, downhill podiums, or the local bowls, GT has grown to be a collective of riders who define their individual forms of expression through Good Times on two wheels.

Welcome to a bold new era.

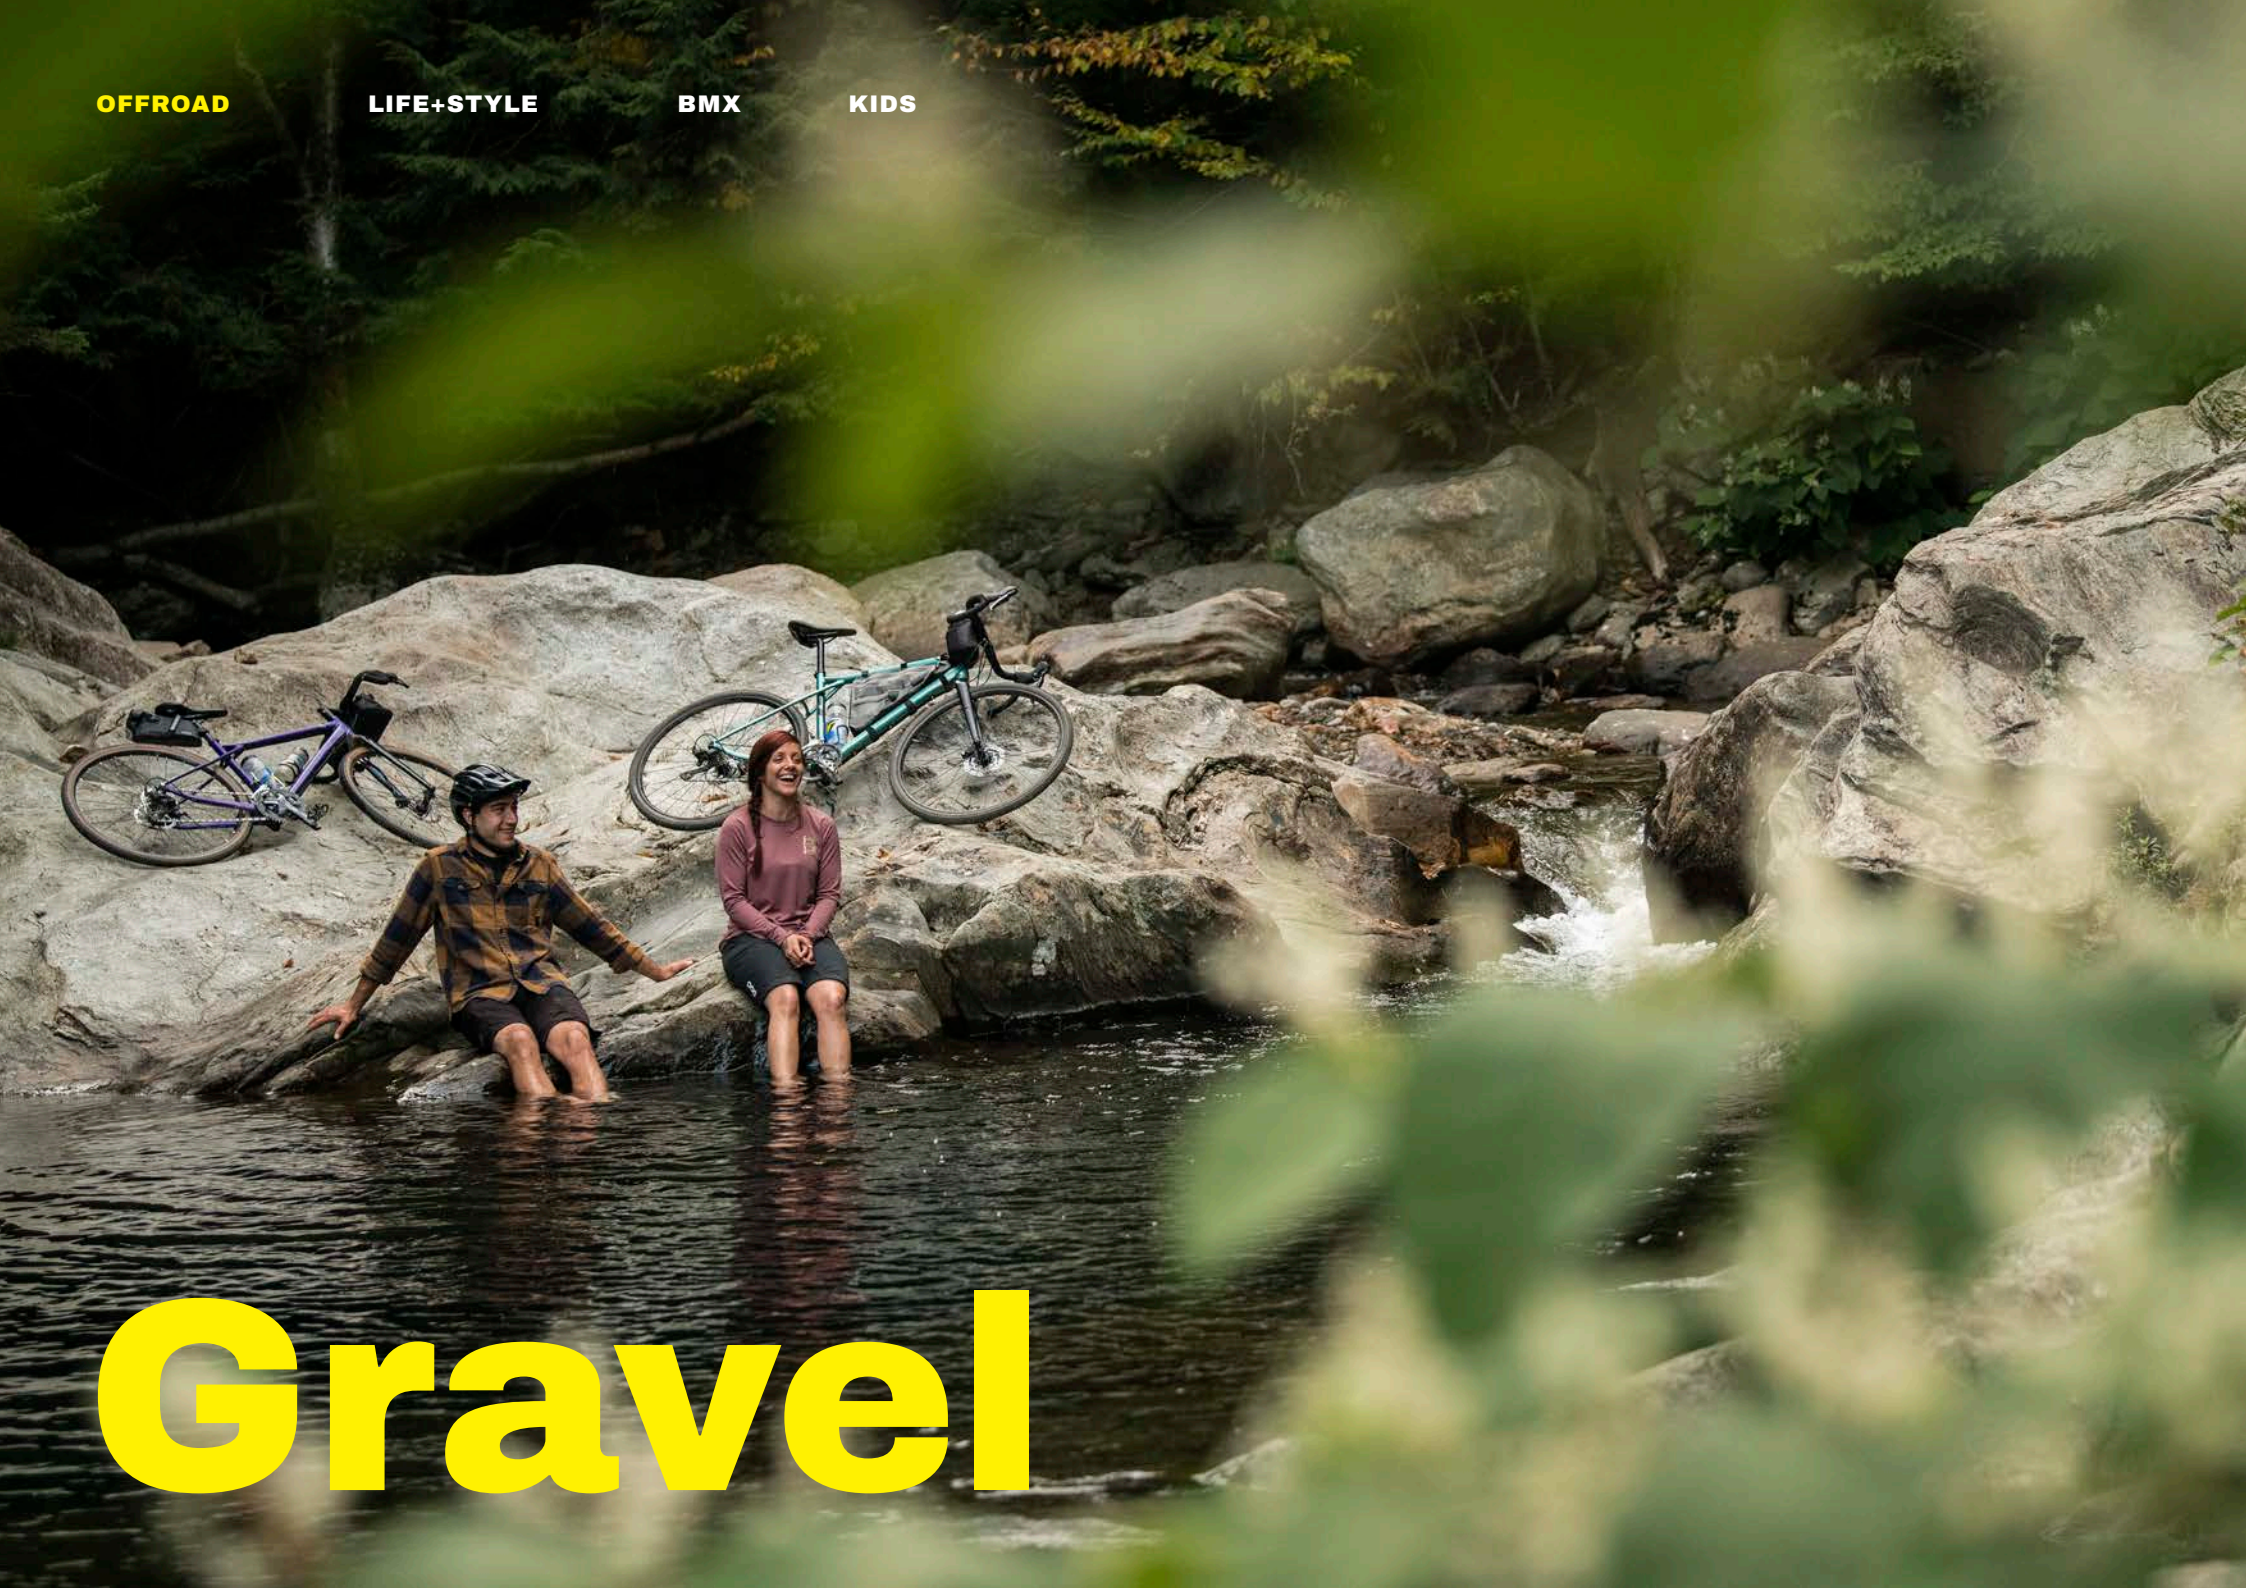

More than a logo, the evolved GT wordmark is a symbol for progression, for movement, for doing things our way since day one. All FY23 innovations will proudly showcase this modern, youthful character across each brand pillar; Offroad, Life+Style, BMX and Kids.
